International forum on “Strengthening trade union participation in decision making on European and national lev

5th - 7th June 2015, Riga

**Trade union
initiatives and
involvement in
supporting
transition from
education to the
labour market
in Poland**

Dominika Pyszowska

All-Poland Alliance of Trade Unions, OPZZ

Transition to labour market introduction

- Polish trade unions working on the implementation the framework agreement on inclusive labour markets.
- Focus on 4 groups:
 - 1.older employees,
 - 2.women,
 - 3.persons with disabilities
 - 4.young people.**

Transition to labour market vocational education

- Big debate on vocational education system in Poland
- 2001 - 2005 -> 3.650 vocational schools closed
-> each working day 3 schools shut down
- 2001 - 2005 half of vocational schools disappeared

Transition to labour market vocational education

- Deformation of educational system
- **No** dual vocational education
- Education is much more less adapted to needs of labour market then in other European countries

Transition to labour market vocational education

OPZZ is stressing the following aspects as problematic:

1. low financial outlays on vocational education
2. mismatch of the education offer in relation to the needs of the labour market
3. lack of modern teaching programmes
4. low quality of vocational education
5. badly equipped workshops and labs for practical lessons at schools
6. depreciation of vocational schools in the consciousness of the society.
